DUDDU LOKESH KUMAR

React.js | TypeScript | Frontend Development

+91 9550737415 | duddulokeshkumar@gmail.com | https://github.com/duddulokeshkumar-cell

PROFESSIONAL SUMMARY

Computer Science and Engineering student with a strong interest in software development, frontend development, and website building. Passionate about learning modern technologies and building responsive, user-friendly websites. Seeking an opportunity to grow and apply technical skills in real-world projects.

TECHNICAL SKILLS

Frontend Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js

Tools & Version Control: Git, GitHub

PROJECTS

Real Estate Website
Developed a responsive real estate platform using React.js and JavaScript, enabling users to browse, search, and filter property listings. Built reusable UI components and integrated REST APIs for property details, agent information, and inquiry management. Focused on delivering an intuitive user experience with optimized performance across desktop and mobile devices.

Hotel Booking Website
Developed a modern hotel booking platform using React.js and JavaScript, allowing users to search hotels, view room details, and manage reservations. Integrated REST APIs for hotel listings, availability, booking, and user authentication. Implemented responsive UI components to provide a seamless booking experience across desktop and mobile devices.

ACADEMIC DETAILS

Bachelor's in Computer Science Engineering (B.Tech) | 2023 – 2026 — Raghu Institute of Technology, Visakhapatnam | CGPA: 7.75
